

FOR IMMEDIATE RELEASE

GAMUDA POSTS RECORD-BREAKING ORDERBOOK OF RM38B AS EARNINGS REACH RM1B

Petaling Jaya, 19 September 2025

Gamuda today announced that the Group has achieved a first, with year-to-date net profit climbing 10% to reach the RM1 billion mark. The regional engineering and property group also saw its revenue increase by 11% to a record-breaking RM16.4 billion.

This milestone is a result of its strong domestic construction projects, with an all-time-high construction orderbook balance of RM38 billion after recording RM25 billion job wins during the year. This unprecedented orderbook balance provides strong revenue visibility and positions the Group for sustained growth over the coming years.

Notably, domestic construction projects comprise 50% of the order book, with data centres contributing 10% of the total value, reflecting the group's focus on diversified infrastructure developments as overall construction margins improved.

Meanwhile, Gamuda Land, its property arm, reported sales of RM4.1 billion, a 19% decline due to Hanoi project approvals near the end of this financial year, with the related sales expected to be carried forward to the next financial year.

Gamuda reported a 22% increase in net profit to RM332 million for the fourth quarter ended 31 July 2025, compared with last year's RM272 million as domestic construction earnings doubled and overseas property earnings jumped 68%.

Looking ahead, the group anticipates next year's earnings performance will be driven by newly awarded domestic construction projects and higher contributions from various property QTPs (quick turnaround projects), especially Vietnam's Eaton Park project.

The resilience of the Group is also underpinned by its record high unbilled property sales of RM8 billion. The Group's gearing is at 53%, well below the self-imposed gearing limit of 70%.
